THE BEST METHOD FOR THE ABOLITION OF DISEASE. IN SIX PARTS AND TAKING THE BODY. Wright's Indian Vegetable Pills, or Indian Purgative, Of the North American College of Health, Are now acknowledged to be the best medicine in the world for the current

EVERY VARIETY OF DISEASE. Because they thoroughly cleanse the stomach and bowels of those bilious humors which not only pro-gro and weaken the digestive organs, but are the cause of headache, nausea, and sickness, palpitation of the heart, rheumatic pain in various parts of the body, many other unpleasant complaints.

THE INDIAN VEGETABLE PILLS. Are also a certain cure for intermittent, remittent, nervous, inflammatory and putrid fevers; because they cleanse the body of those morbid humors, which, when confined to the circulation, are the cause of all kinds of

FEVERS. So, also, when morbid humors are deposited upon the membrane, and muscle, causing those pains, inflammations, and swellings, called

RHEUMATISM, GOUT, &c. The Indian Vegetable Pills may be relied on as always certain to give relief, and if persevered with, will most surely, and without fail, make a perfect cure of the above painful maladies. From three to six of said Indian Vegetable Pills taken every night on going to bed, will in a short time so completely rid the body of every thing that is opposed to health, that Rheumatism, Gout, and pain of every description, will be literally

DRIVEN FROM THE BODY. From the same reason, when, from sudden changes of atmosphere, or any other cause, the perspiration checks, and those humors which should pass off by the skin, are thrown inwardly, causing

HEADACHE, GIDDINESS. Nausea and sickness, pain in the bones, watery and inflamed eyes, sore throat, hoarseness, cough, constipation, rheumatic pains in various parts of the body, and many other symptoms of

CATCHING COLD. THE INDIAN VEGETABLE PILLS will invariably give immediate relief. From three to six of said Pills taken every night on going to bed, will in a short time, not only remove all the above unpleasant symptoms, but the body will be restored to even sounder health than before. The same may be said of

ASTHMA, OR DIFFICULTY IN BREATHING. The Indian Vegetable Pills will loosen and carry off the stomach and bowels, those tough, phlegmy humors which stop up the air cells of the lungs, and are the cause not only of the above distressing complaint, but when neglected often terminates in a still more dreadful malady called

CONSUMPTION. It should also be remembered that the Indian Vegetable Pills are certain cure for

PAIN IN THE SIDE, Opresion, heat, and sickness, loss of appetite, costiveness, a yellow tinge of the skin and eyes, and every other symptom of a torpid or diseased state of the liver; because they purge from the body those impurities which it deposited upon this important organ, are the cause of every variety of

LIVER COMPLAINT. CAUTION. The public will please observe that the genuine medicine has the following writing on the sides of the boxes:

WRIGHT'S INDIAN VEGETABLE PILLS. (INDIAN PURGATIVE) Of the North American College of Health.

And also round the border of the label, will be found in small type, "Entered according to the Act of Congress in the year 1840, by WILLIAM WRIGHT, in the Clerk's Office, of the District Court, of the Eastern District of Pennsylvania."

The public will also remember that all who sell the genuine Indian Vegetable Pills are provided with a certificate of Agency, signed by

WILLIAM WRIGHT, VICE PRESIDENT, OF THE NORTH AMERICAN COLLEGE OF HEALTH, and that pedlars, never in any case allowed to sell the genuine Medicine. All travelling agents will be provided with a certificate of agency as above described, and those who cannot show one will be known as base impostors.

THE public are cautioned against buying Pills of our A. L. Norcross, purporting to be the genuine Indian Vegetable Pill of the North American College of Health, but which are a base counterfeit.

Also, beware of one J. B. Rutherford, who is also engaged in the same business.

REMEMBER. Ascertained by Dr. Hovey's Nerve and Bone Liniment ex-

periment, that the only Agent for the genuine Pill in this City is DAVID BUGBEE, Bookseller, No. 2, Kenduskeag Bridge, which is the only place where the genuine can be had in Bangor.

The following gentlemen have been appointed Agents for the sale of the above named Medicine, Bangor: DAVID BUGBEE, Bookseller, Frankfort; J. B. Chick,

DAKY WHIG AND COURIER.

JOHN S. SAYWARD, Editor

THURSDAY, FEBRUARY 24, 1842.

An Examination into the effect of the Apportionment of Members of Congress upon different States, and particularly as it respects the Slave-holding power of the country.

As the present session of Congress is to determine the basis of Representation for the next ten years, it may not be uninteresting to inquire how the relative strength of the several States, or sections, will be affected by it.

The present number of Representatives is

242. If 68,000 inhabitants, the number reported by the Committee, be adopted as the basis of representation, the number of Representatives will be reduced from 242 to 233. If 64,000

should be adopted, the number of Representa-

tives will be increased to 251. On basis of

60,000, New England loses 4, viz., New Hamp-

shire, Vermont, Rhode Island, and Connecticut,

each one. On a basis of 63,000, she loses 8, viz.,

Massachusetts and Connecticut, each two,

Maine, New Hampshire, Vermont, and

Rhode Island, one each. The Middle 4 States

on the smaller basis lose none, on the larger

basis, they lose 9, viz., New York 5, Pennsyl-

vania 3, New Jersey 1. The Southern States,

with a present number of 70, will, by the larger

basis be reduced to 59, a loss of 11. Of this

loss, Virginia has 6, North Carolina 4, South

Carolina 3, Georgia 1, Maryland 2, in all, 16.

But Alabama and Mississippi gain each 2, and

Louisiana 1, making 5 gain against 16 loss or

an above, an actual loss of 11. The four free

States of the west have now 30 Representatives,

and by the new apportionment they will have

41, a gain of 11. The 4 western Slave States

have now 23, and by the new law they will have

27 a loss of 2.

The case then stands thus—the free States have now 142 Representatives, and the Slave States 100; by the new law, the free States will

have 136, and the Slave States 89, being a net

gain of 7 to the free States. If 60,000 should

be adopted as the basis, the whole number of

Representatives would be 251, viz., 154 to the

free States, and 97 to the slave States, or a net

gain to the free States of 13.

But this subject becomes very interesting by its prospective bearing upon Slavery. The free

States increase with a ratio of nearly 39 per

cent, and the slave States with a ratio of nearly

26 per cent. The subjunctive table will exhibit

the present population of the free and slave

States, and, also, the population of 1850, 1860,

1900, supposing the same ratio to continue.

Population of Population of Federal As

Fed. As. Slave States in State States

1840 9,725,000 7,329,326 6,255,657

1850 13,500,000 9,215,000 7,790,000

1860 18,700,000 11,610,000 10,66,000

1900 26,261,000 23,160,000 25,426,000

If 60,000 should be the basis in 1850 there

would be about 312 Representatives, viz., 114

to the slave States and 198 to the free States.

The probability, however, is, that a larger basis

will be adopted, perhaps 100,000. But whatever

it may be, it is evident from the calculation

exhibited in the table, that in 1860, the free

States will be represented by almost twice as

many as the slave States, and, in 1900 by nearly

three times as many, and that the disproportion

will constantly become greater at each successive apportionment.

It may be asked, will the same relative ratio

of increase continue? It is not certain that it

will, but the chances are that it will be more fa-

vorable to the free States than at present. By

examining the population of the old slave States

for each census since 1790, we find that the in-

crease has been very small compared to that of

the free States, more especially so, for the last

20 years. To illustrate this, we will take 10

States, 5 slave holding, and 5 non-slave-holding

Massachusetts, New York, New Jersey,

Pennsylvania, Ohio, Maryland, Virginia, N. Caro-

olina, S. Carolina and Georgia. All of these

were of the old thirteen, except Ohio, and their

increase will furnish a very fair specimen of the

whole.

The population of the 5 Slave States in 1790

was 1,293,408

do 1830 3,492,000

do 1840 3,746,000

do 5 Free States 1790 1,337,000

do do 1830 5,126,000

Population of Virginia in 1790 748,308

do do 1840 1,239,000

do New York in 1790 340,120

do do 1840 2,428,000

Georgia, then a new State rapidly settling with emi-

grants from the old slave

States, had a population in 1790 of 82,548

in 1840 691,000

Ohio had in 1790 none

" 1840 1,519,000

In 1790, these 5 slave States were represented

in Congress by 99 members, at present by 60

By the new apportionment by 47 members

And if the same ratio continues

for 10 years more, 1850, will

be represented by 50 "

The 5 Free States were repre-

sented in 1790 by 26 "

Their present number 105 "

By the new apportionment 97 "

In 1850, as above, 132 "

The white population of Eastern Virginia

where most of the slaves in that State are found,

in 1830, 375,940, and, 1840, 368,338, a loss

of 6,542. The white population of Western

Virginia, comparatively free from slaves, was

in 1830, 318,505, and in 1840, 371,570, a gain

of 53,065, or, as compared with the eastern dis-

trict, 59,607.

From these and other facts which we cannot

well now stop to give, we infer that slavery

is not likely to be of proportion, and

that when the States permitting it, teach & cer-

tain degree of density in the population it then remains nearly stationary. If this be true, and we think that facts warrant the conclusion, we may infer that Georgia and Alabama, will, in a few years, have reached this stationary point, as Virginia and the Carolinas have already done. So it will be with Tenn and Kentucky, unless measures be adopted to abolish slavery in them. Vast numbers from all these States, are emigrating to the new and unexplored regions of the Mississippi, Louisana, and to the free States of the North West. Texas also draws great numbers of the partisans of slavery, who are desirous of getting as far distant as possible from the scenes where the right and expediency of the peculiar institution are questioned.

The country, within which slavery is to be tolerated, is now all divided into States with the exception of Florida. Soon these States will all be as densely settled as the nature of slavery, and the habits which it induces will permit. But there are vast domains in the West, and North West, not yet incorporated into States, where slavery is never to be admitted. These regions receive the surplus population of the Eastern and Middle States, and of numbers from the slave States, who have become convinced of the evil effects of slavery, and it may safely be predicted that in all time to come, the free States will continue to increase with a relatively increasing ratio over the States continuing slavery, unless this moral and political evil be removed.

What the condition of these last will be, when their political importance ceases to be felt we have not now time to inquire.

The Real Yankee Spirit.

There were several incidents connected with

the great temperance jubilee, in this city, on

the 2d instant, worthy of being preserved as

specimens of the true yankee spirit of '76.

At the Convention Mr Elisha Rowe of Edg-

ington appeared, and stated that he was a dele-

gate from Eddington. He had heard of the

Washingtonian movements had obtained a

pledge and signed it, and although he had not

been successful in obtaining the signatures of

his neighbors yet he had come himself as the

delegate, and the society, to attend the great

meeting, and to ask that lecturers might be sent

into his town to address the people.

The delegation from Milford, stated that a letter

of invitation to attend the Convention arrived

at their Post-office directed to the Secretary

of the Milford Washingtonian Society. But

here was no Society there, and the letter cause

dread a great deal of laughter and much joking.

It was taken out but a few days since and intro-

duced into a public meeting in connection

with a Total Abstinence pledge, for discuss on.

The debate was animated, and continued to a late hour, when thirty, out of the fifty persons present,

signed the pledge. They immediately formed a

society, chose a Secretary of the Milford Wash-

ington Total Abstinence Society, to take charge

of similar letters to the one spoken of and sent

delegates to represent them in convention.

Several additional names had been added to the

pledge, and the cause of the society was on

ward. They were mostly hard laboring men,

and concluded it was better to spend their earn

ings for the comfort of their families, than was

want in the purchase of grog.

IMPORTANT WORK.
Now in Press, and will shortly be published, a Dictionary of
Arts, Manufactures, and Mines,
BY ANDREW DRE, M. D., F. R. S. &c.

Illustrated with 1,941 Engravings!

THIS is, unquestionably, the most popular work
of the kind, ever published, and a book most
admirably adapted to the wants of all classes of
the community. The following are the important ob-
jects which the learned author endeavors to accom-
plish:

1st. To instruct the Manufacturer, Metallurgist,
and Tradesman, in the principles of their respective
processes, so as to render them, in reality, the
masters of their business; and, to emancipate them
from a state of bondage to such as are too com-
monly governed by blind prejudice and a vicious
routine.

2d. To afford Merchants, Brokers, Draymen,
Officers of the Revenue, characteristic descriptions
of the commodities which pass
through their hands.

3d. By exhibiting some of the finest developments
of Chemistry and Physics, to lay open an ex-
cellent practical school to students of these kindred
sciences.

4th. To teach Capitalists, who may be desirous
of placing their funds in some productive branch of
industry, to select judiciously, among plausible
claims.

5th. To enable gentlemen of the Law to become
well acquainted with the nature of those patent
schemes which are so apt to give rise to litigation.

6th. To present to Legislators such a clear ex-
position of the staple manufactures, as may dis-
suade them from enacting laws, which obstruct
industry, or cherish one branch of it, to the injury of
many others.

7th. To give the general reader, intent,
chiefly, on Intellectual Cultivation, views of many
of the noblest achievements of Science, in effecting
those grand transformations of matter, to which
Great Britain and the United States owe their
present wealth, rank and power, among the nations
of the earth.

The latest Statistics of every important object
of Manufacture are given from the best, and usually
from Official authority, at the end of each article.

The work will be printed from the second Lon-
don Edition, which sells for \$12 a copy. It will
be put on good paper, in new brevier type, and will
make about 1400 pages. It will be issued in
twenty-one semi-monthly numbers, (in covers) at
25 cents each, payable on delivery.

To any person, sending us five dollars, at one
time, in advance, we will forward the numbers by
mail, post paid, as soon as they come from the press.

To suitable Agents, this affords a rare opportunity,
as we can put the work to them on terms
extraordinarily favorable. In every manufacturing
town, and every village, throughout the United
States and Canada, subscribers may be obtained
with the greatest facility. Address, post-paid La-
Roy Sunderland, 126 Fulton street, New York.

To every editor who gives this advertisement
entire 12 insertions, we will forward to order, one
copy of the whole work, provided the papers con-
taining this notice be sent to the New York Watch-
man, New York.

NOTICE TO FAMILIES, SHIP OWNERS AND MASTERS OF VESSELS

ALL LOVERS OF GOOD BREAD are recommended to make use of WM. BROWN'S PORTABLE CAKE YEAST, as it makes the bread much better than the common mode. The Yeast is free from all impure ingredients, makes the bread perfectly white and light, is well adapted for ship's use and will keep in all climates. It is now in extensive use in Boston, and orders are beginning to be received from all quarters. No better evidence is wanting of its superiority over all other articles used for baking bread than the following Certificate.

BOSTON, May 20th 1841
The undersigned, having made use of William Brown's Portable Cake Yeast for rising bread, in our opinion this new preparation of Yeast is far better than any other article we have ever made use of, and will make the bread much whiter and very light, and we believe to be free from all impure ingredients.

Signed by the Pastry Cooks at the Tremont House Pavilion, American House, and Marlboro' Hotel.

It is now in use at most of the Hotels in the city, and on board all the Steamships belonging to Mr. Cunard's line of Packets. A note is just received from John Anderson, Pastry Cook on board the Steamship Britannia, who writes that he has made use of Wm. Brown's Yeast for making bread, during two voyages across the Atlantic, and can recommend it as far superior to any thing else for making bread. No vessel should go to sea without it.

The above article is now for sale by the Proprietor, 481 Washington street. Also dealers can be supplied at the manufacturer's price, by Dana, Evans & Co., Slaters Pierce & Co., Wm. Stearns & Co., Wm. Bradford & Co. Retailed by all the West India Goods dealers in Boston, Salem, Providence, Worcester, Springfield, Hartford and New Bedford.

FOR PROMOTING THE GROWTH AND BEAUTIFYING THE HAIR

THE Genuine BUFFALO OIL is fast taking the place of all other preparations for the hair now in use. It beautifies and softens the hair, giving it a satin gloss, that no other article does, and leaving it to curl beautifully. As animalions have recently appeared "the outside wrapper of the game" will be signed by the proprietor, WM. BROWN also a copyright for the engraving and direction has been secured and entered according to act of Congress 1840. See that "Buffalo Oil" is impressed upon the glass bottle, to avoid the counterfeiter. For sale in Boston by all the druggists and perfumers. Dealers can be supplied of WM. BROWN 481 Washington street Boston. Also for sale by the drug stores in Lowell, Salem, Providence, Worcester, Hartford, and most of the country towns.

THE MOST HIGHLY APPROVED MEDICINE

Now in general use for Coughs, Colds and all Diseases of the Lungs.

THE VEGETABLE PULMONARY BALM is believed to be the most popular medicine ever known in America, for Coughs, Colds, Asthma, or Phthisis, Consumption, Whooping Cough, and Pulmonary Affections of every kind.

Extracts from Certificates.

Dr Samuel Merrill of Concord, N. H., writes "that he satisfies the Vegetable Pulmonary Balm is a valuable medicine, having been used with complete success in cases which had previously resisted the most approved prescriptions."

Dr Truman Allell of Lempster, N. H., writes that he confidently recommends its use in all complaints of the chest, as equal, if not superior to any other medicine within his knowledge."

Dr Amos Flint of Franklin, Mass., writes that after having prescribed the usual remedies without relief, and having consulted with several eminent Physicians, he has found the Vegetable Pulmonary Balm to have had the desired effect, and recommends it as a safe, convenient & efficacious medicine.

Dr Thomas Brown, of Concord, N. H., writes that, to his knowledge, it has never disappointed the reasonable expectations of those who have used it.

The public are particularly cautioned against the many Counterfeits & Imitations, which have partially or wholly assumed the name of the genuine article.
